

# Comfort Seat Information

To the new owner,

Thank you for purchasing your new **L. H. Kayak Seat**.

Like all of the fine products made by Long Haul, your new seat was designed to last for years of service. Also providing comfort to you, while kayaking and also for sitting around your favorite camp sites.

## **Care and maintenance of your new seat is easy.**

Always store your seat away dry and read the care information on the Thermarest Touring Seat. Over time you may find it necessary to touch up the wood seat and backrest with varnish.

The seat comes with four attachment straps, two on the front and two on the back of the seat bottom. These straps are for securing the seat to the ribs of your kayak. You may find that the straps are not needed for you, and can be easily removed.

The seat was designed to work in the Aerius I and II, in the front, rear and solo positions. The seat will not interfere with the operation of spraycovers or rudder assembly's.

Thanks again for purchasing our **L.H. Comfort Seat** and enjoy!!!
